

## **MUM-Preneur Provides Sewing Lessons to Pregnant Women, New Mums and excited Friends and Relatives**

Do you struggle to find something beautiful to wear with a growing bump? Have you dreamed of making personalised baby clothes that can be treasured forever? Would you like a stylish and unique nursing bib at feeding time? Does socialising and creating adorable clothing, furnishings and gifts with other baby-minded women, excite you?

Then, you must meet Girls Learning About Money (GLAM) Mum-Preneur, Carolyn Rose. She has over 20 years of experience in sewing and teaching. Having studied at Sheffield University, she taught in secondary schools covering everything from art and textiles to food and childcare. She has now expanded her repertoire to include interior design, soft furnishings and upholstery.

With two children of her own and running her own sewing school for the past two years, Carolyn was excited to be approached by GLAM's Executive Officer and mum-to-be, Alysia Hamilton with the idea of sewing classes focused on the mum-to-be, new mums and excited, friends, grannies and aunts.

Classes take place in a beautiful Regency house complete with computerised sewing machines, overlockers and thoughtful touches like a changing table and feeding room. Carolyn, who manages to make sewing both easy and fun says "sewing can be for everyone...whether they are 6 years old or more mature, a complete beginner or have some experience. Come along, have a cup of tea or coffee and join in!"

Women interested in the Baby Sewing Sessions will learn to make:

- baby items: bibs, clothes, changing mats, swaddling cloths
- mum items: maternity outfits, nursing bibs
- nursery items: bunting, Moses basket/cot decorations, curtains, toys

"So often women who are pregnant or new Mums feel they have to stop taking classes because of doctor's appointments or baby's schedule. With Carolyn's classes, there are more flexible options and best of all you can take your baby with you and start making unique and beautiful creations' said GLAM Executive Officer Alysia Hamilton.

GLAM gives women the opportunity to learn about finance-related topics and network with like-minded, intelligent and inquisitive women. GLAM supports women-owned businesses where women are passionate about their product

or service, eager to continue learning about money and care about supporting, promoting and nurturing other women.
