

For immediate release

I DON'T KNOW HOW SHE DOES IT!

Girls Learning About Money (GLAM) are celebrating their fifth birthday on Thursday 10 November at Palace Cinema and are inviting women to join them with social drinks, nibbles and the release of a special movie "I Don't Know How She Does it!".

"We believe the theme of this movie resonates with so many GLAM women that we could not think of a better way to get together to celebrate five consecutive years of holding GLAM financial events" GLAM Executive Officer Alysia Hamilton said.

"GLAM believe women are amazing and they work harder than ever these days balancing careers and the needs of family life.

"Do you believe that today's business world is moving towards better understanding of the out-of-office responsibilities of working women?"

"Do you agree that no matter how busy our lives become we always end up doing most of the housework?"

The movie, 'I Don't Know How She Does It' tells the story of Kate Reddy, hedge-fund manager, wife and mother of two, role modeling the dilemma of every working mum. The movie stars Sarah Jessica Parker and Pierce Brosnan.

"So you multi-talented women managing so many aspects of life, bring your girlfriends along to our final event of the year and meet other wonderful women.

Converse over a glass of wine, share stories of juggling personal, family and professional life before enjoying the movie".

We look forward to seeing you on Thursday, 10 November, for this GLAMorous, fun event.
